Subject 【URGENT】Reply to your FCC comments

Dear Bill,

We got some comments from FCC with regard to Oki Data project, (FCC ID:B2K-4336821A).  
Then, we were supposed to respond them, but we are not authorized to respond it.  
(Because UL Apex in Japan isn't the TCB so, do not know the TCB Login No/Password as well.)

Following this reason, on behalf of us, could you reply to FCC as follow:?

-----  
Regarding to your below comments, we are replying as follows:

- 1) We have already submitted the photo of antenna to you. Please see the our exhibit "External Photo".
- 2) The photo in the modular approval letter is exactly module with shielding. We understand that this module is included printer case.  
This is why we believe this is not needed to change, but we think this MA letter leads to a little misunderstanding.  
So, we are now submitting new photos for brief explanation.  
In the attached file, there are two photos. The Photo 1 which is in the MA letter, and Photo 2 are the same things.
- 3) As we mentioned, this module is included printer case. So, we performed the testing module with case as it is in the Setup photo.  
The modular approval letter and the test report which we submitted are completely consistent.
- 4) The label location & design which we have submitted is the module.  
Please let us explain again, this module is included the printer case.
- 5) We have already submitted user manual.

-----  
Thank you very much for your attention & support in advance.

Best regards,

Akane YAMAMOTO(Ms.)

Re: FCC ID: B2K-4336821A

Applicant: Oki Data Corporation  
Correspondence Reference Number: 24886  
731 Confirmation Number: TC630896  
Date of Original Email: 11/29/2005

Subject: Request for additional information

- 1) Please provide photos of the antennas to be authorized.
- 2) Please provide external photos of the module with shielding as mentioned in the cover letter. If printer case provides shielding than please modify the module letter and grant comment accordingly.
- 3) Please repeat radiated test with module standalone as mentioned in the cover letter. Testing appears to be with module mounted in host case. If printer case provides shielding than please modify the module letter and grant comment accordingly.
- 4) Please revise FCC ID location photo. Provide a photo of the module with the FCC ID on it. Also, please provide information about the "module" label to be placed on the host device.
- 5) Please provide an OEM user manual for the module. Instructions for end user manual must be included.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal pursuant to Section 2.917(c).

DO NOT Reply to this email by using the Reply button. In order for your response to be processed expeditiously, you must upload your response via the Internet at [www.fcc.gov](http://www.fcc.gov), E-Filing, OET TCB Electronic Filing, TCB Login. If the response is submitted through Add Attachments, a message which informs the processing staff that a new exhibit has been submitted must also be submitted via Submit Correspondence. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to

the e-mail address listed below the name of the sender.
