A white rectangular label with a barcode and the alphanumeric string "WML16180017" is placed on a green printed circuit board (PCB). The PCB features various electronic components, including two large square copper pads with circular holes at the top and bottom, and a multi-pin connector on the right side. The label is oriented vertically, with the text "WML16180017" at the top and the barcode below it.
