

FCC ID: B32MX900-04BTWIFI

Item	Requirements	EUT
1	The modular transmitter must have its own RF shielding.	The RF module has its own RF shielding. Please see exhibition external photos.
2	The modular transmitter must have buffered modulation / data inputs.	The EUT has buffer modulation / data inputs part no.: BCM4329
3	The modular transmitter must have its own power supply regulation.	The EUT has its own power supply regulation part no.: BCM4329
4	The modular transmitter must comply with the antenna requirements of the Section 15.203 and 15.204(c).	The EUT meets the FCC antenna requirements. The spurious emission, unique antenna connector and photo are shown in the test report.
5	The modular transmitter must be tested in a stand-alone configuration.	The module is tested as a limited module configuration via a specified phone. Please see section Photographs of Test Configuration in the test report.
6	The modular transmitter must be labeled with its own FCC ID number.	The FCC ID will be affixed on the RF module.
7	The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.	The EUT will compliant with all applicable FCC rules. Detail instruction will be stated in the user's manual.
8	The modular transmitter must comply with any applicable RF exposure requirement.	The modular transmitter complies with RF exposure requirement. RF Exposure is addressed in the RF exposure report.

Effective Date: Immediately.
