

## Correspondence Summary

February 22, 2010

**SUBJECT: VERIFONE - FCC ID: B32VX680GPRS**

TCB question:

1. Computer peripheral: the FCC DoC logo is absent from the label. Please indicate whether the computer peripheral portion of the device can be connected to a class B personal computer. If so, please indicate whether it will be approved following either the DoC or Certification procedure. Please submit either a cover letter, a 731 Form (JBP), or revise label by including the FCC DoC logo if it was tested and approved following the DoC procedure.

Applicant's Answer:

RE: The device cannot synchronize with PC; the USB port is used for the manufacture by upgrading their device.
