RE: Equipment ID: B3TG25RPV100

Dear Sir,

It has been brought to our attention that documents Datron provided in support of the certification process make reference to certain accessory items not certified as part of this filing.

The AA auxillary battery clamshell and the belt clip are not offered for sale. They will not be offered for sale until such time Datron seeks and receives approval for these accessory items.

Datron hopes these actions correct the areas of concern noted.

Sincerely,

Mark Allen  
Vice President, Engineering
