

Proposed RF exposure safety information to include in User's Manual:

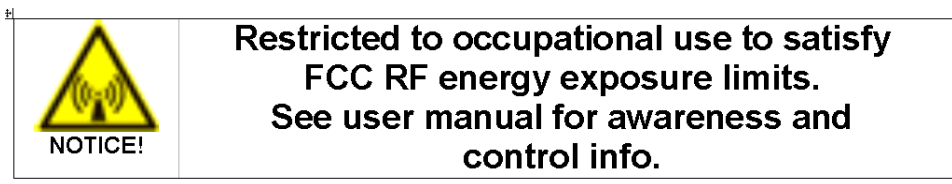

“FCC RF Exposure Requirements:

CAUTION:

The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This device is approved with emissions having a source-based time-averaging duty factor not exceeding 50%.

- The antenna supplied with this radio is to be the only one used. If it becomes defective please contact us for an authorized replacement.
- Use this transmitter at the farthest comfortable distance from the user possible for the lowest RF exposure.

The following label will be mounted in conspicuous view on the radio.

Failure to observe these restrictions will result in exceeding the FCC RF exposure limits.
