

ComPak BPK1000

user manual

Introduction

Thank you for your choice of ComPak BPK1000. It is a DECT (Digital Enhanced Cordless Telecommunications) Full Duplex Communication System. To the quality of audio and to the safety offered from the digital technology, BPK1000 offers manifold and useful features including Full duplex system, multi-capabilities and multi-volume select. Please read this instruction carefully before using your new BPK1000 for the first time.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference; and (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC RF Radiation Exposure Statement: This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operated in conjunction with any other antenna.

WARNING:

Changes or modifications to this unit that are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

A glance guide for the BPK1000

Installation

Please check your package that included the following items:

- Base Unit
- BPK1000
- AC / DC adaptor for Base Unit
- Base packing batterie
- Packing batterie for BPK1000

Choose a suitable site for the base unit, make sure it is not near to other electrical equipments.

Connect the AC adaptor socket to the Base Unit and to your room's power socket.

Turn on the power of base.

Fitting the battery in the BPK1000.

The pack rechargeable batteries come with your charger.

-Insert the rechargeable battery into the BPK1000 as the above figure indicated, matching correct polarity.

-Fit the battery compartment cover by sliding it down so that it clicks firmly into place.

NOTE: Reversing the orientation may damage the BPK1000. Please use the battery type supplied or recommended equivalents. A different battery could cause an explosion or damage of your BPK1000.

Specification

Standard	DECT6.0 (Digital Enhanced Cordless Telecommunications)
Frequency	1920 ~1930GHz (USA)
Frequency	1880 ~1900GHz (EURO)
Channel Bandwidth	1.728 MHz
Modulation type	GFSK
Transmission speed	1.152 Mbps (Baud rate)
Duplexing	Time Division Duplex (TDD)
Speech encoding	ADPCM / 32kbit/s
RF Accessing	Time Division Multiple Access (TDMA)
Channel	5(USA) 10(EURO)
Coverage range	50m indoor; 300m in open space
Base Power Supply	AC/DC adaptor: INPUT 110-240Vac; OUTPUT 9.0Vdc 1000mA
BPK-1000 Power Supply	Rechargeable battery: 3.7V/ 1000mAh

Charge Time initially	6 hours
Operation time	100 hours in standby; 8 hours in talk
Normal condition of use	0 ° C to 40 ° C
Storage Temperature	-10 ° C to 60 ° C

LIMITED WARRANTY

This limited warranty only applies to the use of this device with a communications service for which it is designed. This device alone does not provide the customer with any communications service and requires a separate subscription to a communications service from a service provider. Altering service provider-specific settings may void the warranty. This limited warranty does not warrant that the device will be free of any limitations of voice quality or service caused by (1) the services provided by the customer's underlying communications service provider; or (2) interference from other radio frequencies or transmissions, static electricity, and other electronic devices.
