

Description of Class I permissive change to the following product:

FCC ID: B4Z-663A-LOOP

Form 731 Confirmation Number: EA722682

REMITTANCE ID NUMBER: 539576

AUTHORIZATION NUMBER: 010514

Applicant: GE Security, Inc

Correspondence Reference Number: 27018

The microprocessor for this receiver is going obsolete and therefore is being changed to another microprocessor in the same family. There are minor software and board changes due to absorbing watchdog and A/D into the new microprocessor and some pinout changes. There are no changes to the core receiver code and hardware.
