Overview

UTC Fire and Security is submitting this application for the original limited modular approval of their 3G cellular modem, model AV-3G, FCC ID: B4Z-994-3G. The device will be professionally installed into host device, Model AVO-1037 Advisor One Security Panel.

The device tested in the host device for this limited modular approval. The Intertek reports reference FCC ID: B4Z-994E-3G, which is the identical radio.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
