

UTC Fire & Security

A United Technologies Company

Attention:
Application Examiner

Re: Request for confidentiality

Applicant: UTC Fire and Security

FCC ID:B4Z-962D-BT

To whom it may concern,

Request is hereby submitted by UTC Fire and Security to withhold permanently from public review certain portions of this application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- Schematics
- Detailed Block diagrams
- Detailed Operational/Functional Description
- Tune up procedure
- Parts list
- Internal photos
 - Device is not sold to end user.
- User manual
 - Professional installation required so the manual is not provided to the consumer since the consumer cannot service the device

Rationale for request for confidentiality:

UTC Fire and Security has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us.

Sincerely,

Kevin Flanders
Global Product Compliance Leader
UTC Fire and Security
