Subject: Permissible Change Class II for FCC ID: B5KAKRB1011112-2

Attention: Equipment Authorization Branch

Gentlemen;

Ericsson AB requests a Permissible Change Class II for the above mentioned FCC Identifier.

This amplifier shall also be used for another outdoor cabinet RBS3104. RBS 3104 is a single cell minimized version of the earlier RBS 3202 resp. RBS 3101. This cabinet is also weather and climate protected.

This base station multi carrier power amplifier are designed for use in the WCDMA 1900 MHz cellular telephone systems. The transmitter will operate at 1930.0 to 1970.0 MHz. The base station operates in the A, B, D and E-band in the 1900 MHz broadband PCS services as per 47 CFR Part 24 subpart E. It meets the requirements of 3GPP specification for operation in WCDMA cellular systems.

This base station multi carrier power amplifier will in normal mode operate at a nominal power out of 20 watts at the antenna connector.

Ericsson AB requests confidentiality under CFR 0.459. Confidentiality for the following exhibits is requested: Exhibit 8 Product Description RBS 3104

Justification of this request is in order to protect the large investment in developing this technology and to facilitate the circuit miniaturization utilized in this design and protect the innovative design as well as proprietary techniques which are implemented. In order to protect Ericsson's competitive advantage on these proprietary techniques, we request the above listed exhibits be held as confidential and withheld from the Public Information File.

If additional information is needed, please contact me on the below listed number.

Sincerely,

Larry Lindström
Staff Engineer, Regulatory Programs
Ericsson AB
