Subject: Complementary information for a Class II Permissive change of FCC ID: B5KBRKRC1311004-2

Gentlemen;

Ericsson AB requests a Grant of Certification (Type Acceptance) for the above-mentioned FCC Identifier.

After a clarification of the test method when testing the band edge Ericsson AB wants to request a change in the restriction of using the channels at the band edges (channel 512 – 1930.2 MHz and channel 810 – 1989.8 MHz). In order to fulfill the band edge requirements the output power in channel 512 and 810 has to be reduced to the following values:

Mode	Reduced power (dBm)	Nominal power (dBm)
GMSK	+39	+45
8-PSK	+42	+45

If additional information is needed, please contact me on the below listed number.

Sincerely,

Per Helmersson
