Subject: Complementary information for a Class II Permissive change of FCC ID: B5KBRKRC1311005-2

Gentlemen;

Ericsson AB requests a Grant of Certification (Type Acceptance) for the above-mentioned FCC Identifier.

After a clarification of the test method when testing the band edge Ericsson AB wants to request a change in the restriction of using the channels at the band edges (channel 128 – 869.2 MHz and channel 251 – 893.8 MHz). In order to fulfill the band edge requirements the output power in channel 128 and 251 has to be reduced to the following values:

Mode	Reduced power (dBm)	Nominal power (dBm)
GMSK	+40	+46
8-PSK	+45	+46

If additional information is needed, please contact me on the below listed number.

Sincerely,

Per Helmersson
