1. In your document "RBS Radio configurations (38/1551-LZA 701 0001 Uen PC2 2006-12-11)" there are something called "SW Power boost" described in clause 5 and 6.5. Please explain that option if supported by your equipment.
2. Please update your Exhibit 12 circuit description with CDU-K.

Yours sincerely,
