Subject: RE: New application for FCC ID:B6BZR-101AA and B6BZB-101AA

HI Yoshiko

Please note that 15.19(a)(5) is very specific. It states, "When the device is <u>so small</u> <u>or for such use that it is not practicable to place</u> the statement specified under paragraph (a) of this section on it, the information required by this paragraph shall be placed in a prominent location in the instruction manual or pamphlet supplied to the user or, alternatively, shall be placed on the container in which the device is marketed. However, the FCC identifier or the unique identifier, as appropriate, must be displayed on the device."

As mentioned in the comments, the device appears to bee more than large enough to accommodate the required 15.19 statement.

Please note that placing the statement in the manual does not relieve the responsibility of the manufacturer to follow the rules of label and label placement.

The manufacturer must have valid reasons in accordance with 15.19(a)(5) in order not to have the label ON the device. If size is the reason for B6BZB-101AA (typically devices that fit snugly in the hand can have the label in the manual), please clearly indicate this.

However, for *B6BZR-101AA* (the base station), size does not appear to be a valid reason. The manufacturer must provide another valid reason or place the label on the device. Please provide a valid reason in writing as to why the statement is not on the product.

```
Thanks
Dennis

Dear Dennis,
For your comment 1 of B6BZR-101AA and comment 2 of B6BZB-101AA, regarding
to Labeling matter, we acknowledge that there will not be a problem if the
statement you required is contained in the manual in according to
15.19(5).
These statement are alrealy in page iv of the manual, therefore, we would
like to have your understanding that you consider it could be acceptable.
Best regards,
Yoshiko Mizuta

Subject: New application for FCC ID:B6BZR-101AA and B6BZB-101AA

Dear Bill, Tim and Dennis,

Hi!

I have uploaded the application documents for the above products last night in Japan time.

Please confirm that all the documents are properly submitted or

If there are any missing information or any problems, please let us know.

Thank you!

Best regards,

Yoshiko Mizuta
