99% Bandwidth Measurement.pdf 0312292 Part 95H Report Revise...

Hello Mike,

Attached please find the 99% bandwidth measurement. The test report is also updated.

Thank you!
Helen

Notice_content

Question #1: Please provide necessary bandwidth justification by using Carson rule ($2M+2DK$) per section 2.202(c) of FCC rules. 7K83 is the 26dB bandwidth per the measurement. 26dB does not equal to necessary bandwidth. Per FCC instruction, if the necessary bandwidth is difficult to justify, measured 99% bandwidth may be used. However, in the test report, there is no 99% bandwidth measurement information.

Best Regards

Mike Kuo

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
