NIHON KOHDEN SNT-RFA
6190-025876B-S6 MAIN
UR-3775

6190025876B
S6
SNT-RFA
UR-3775

The main PCB assembly features a central microcontroller chip labeled **64F2238RTE13** with sub-labels **H8S/2238** and **AMB1261 0350**. To the left is a quartz crystal resonator labeled **3.84603M**. The board is populated with numerous resistors (R701-R750), capacitors (C701-C725), and integrated circuits (U701-U708). A gold-plated connector strip is visible on the left edge. The PCB is connected to a green board above via a multi-lane orange flex cable. A white plastic component is attached to the right edge. The board is marked with the manufacturer's name **NIHON KOHDEN**, model **ZM-ES/EO MAIN**, date **2002.07**, and part number **631969 0402 Z07**.
