Ref: FCC Class II Permissive change for FCC ID: **B94-TNW155GP2KV**

Dear Examiner,

This is to request a Class II permissive change for the equipment HP model TPN-W155 under FCC ID: **B94-TNW155GP2KV**, originally granted on **07/06/2022**.

FCC ID: PD9AX211NG , originally granted 02/17/2020. This is a WLAN 802.11a/b/g/n/ac/ax module that is authorized for portable/mobile conditions

FCC ID: ZMOFM350GL, granted 04/09/2021. This is a PCS licensed transmitter LTE module authorized as single modular approval to Fibocomm Wireless.

**No changes made except for the WWAN TAS implementation. Our intention is to apply the PAG re-use process for granting approvals. The full PAG review was previously performed under KDB 733296. We believe this application meets the conditions for PAG re-use as it is a special rf exposure compliance condition. The exact same WWAN authorized modules are re-used in this PC with the exact same algorithm and validation methods for time averaging SAR as approved in KDB 4733296.**

Sincerely,

By:
