Attn: OET Dept.

Referencing test data across separate equipment authorization

Original FCC ID: B94HHF606 Original Grant Date: 06/27/2016 Applicant: HP Inc.

Dear Examiner,

This is to request an application of referencing test data across separate equipment authorization for a new FCC ID: B94HHF606V.

1. HP Inc. Declares on its sole responsibility that the B94HHF606V meets all the essential requirements of the applicable FCC rule Part 15.247 DTS, DSS, Part 15.407 NII.
2. The only change between B94HHF606 and B94HHF606V is open CDMA and LTE B13 for H/W change.
3. Spot-check data based on the worst-case result in the original FCC ID: B94HHF606 filing has been submitted with this application for verification, please refer to report number: ER/2017/20026 and ER/2017/20027 for spot-check data.
4. The test reports exhibited under original FCC ID: B94HHF606 will be referred for the new FCC ID: B94HHF606V as below:
ER/2016/40048 Part 22,24,27 PCS,
ER/2016/40052 Part 15.247 DSSS, ER/2016/40049 Part 15.247 DTS
ER/2016/40053 Part 15.247 DTS, ER/2016/40050 Part 15.407 NII
ER/2016/40051 Part 15.407 DFS, ER/2016/40054 Part 15.225
5. WLAN and Bluetooth transmitters would not simultaneously operate. Though the users can use WLAN and Bluetooth simultaneously, but the real situation is that WLAN and Bluetooth are used by time sharing and no overlap transmission.

Should you have any question, please have my best attention.

Sincerely Yours,

Signature
