Section 4. Host Platform Information

OEM / ODM Host platform:

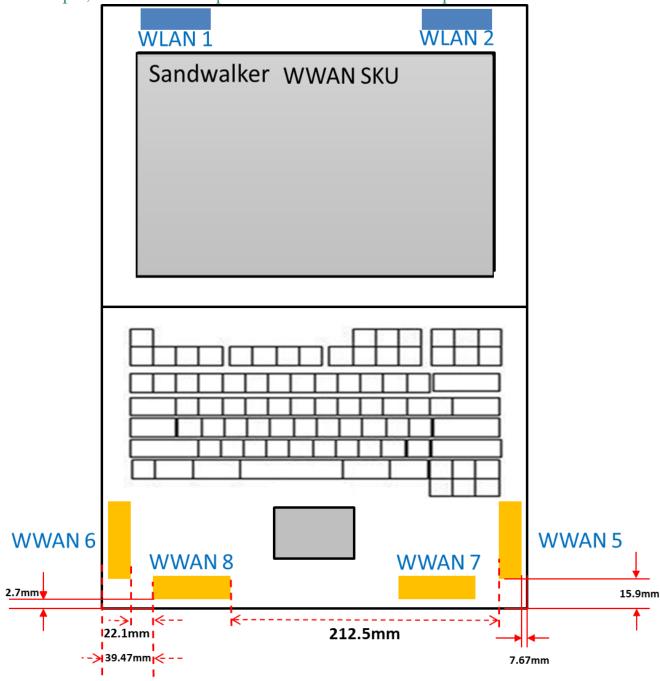

Rating Label Photo:

Section 5. Antenna Host Platform Location Information

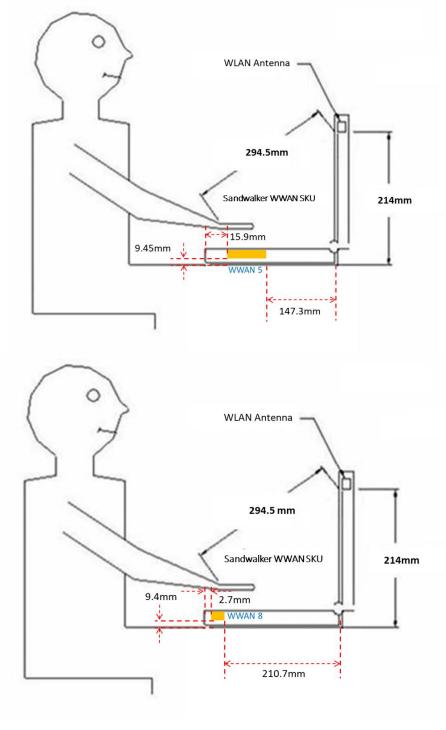

Include a dimensioned photo(s) or dimensioned drawing(s) of Ant5, Ant6, Ant7, Ant8 placements (measurements are not required for receive-only antenna).

Any antenna that transmits must show dimensions to bottom of laptop. Provide a description of the materials that are used for supporting or surrounding transmit antennas; for example, non-conductive plastics vs. conductive coated plastic or metallic materials.

Section 6. Antenna dimensional information for SAR evaluation

Include a **dimensioned photo(s)** or **dimensioned drawing(s)** showing the distance (mm) between the transmit antennas and the user (excluding hands, wrist, feet, and ankle). For notebook/laptop hosts show lapheld position (example below). For tablet hosts show all orientations including lapheld, primary & secondary portrait, primary & secondary landscape positions. Include a description of any proximity sensors or power throttling implementations that limit or exclude use of any host orientation.

Section 7. Diagram Example of Co-Location Antenna Separation

Include a **dimensioned photo or dimensioned drawing** showing the distance (mm) between <u>all WLAN transmit antennas</u> and other co-located radiator transmit antenna such as Bluetooth, WWAN,..
