RE: Hewlett-Packard Company

FCC ID: B94HSTNH-F13C

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Kindly provide detailed Block Diagrams for the RF portions of the GSM transceiver, the Bluetooth and the WiFi.
- 2.) The FCC website lists the contact window of Hewlett-Packard as David Adams. But the Confidentiality Request is signed by Walter Overcash. On whose authority does Walter Overcash speak for Hewlett Packard?
- 3.) Please review the Label in light of the requirements of RSS-GEN. The Label supplied is to identify an engineering version only of this product. May we please have actual label artwork for this device as it will be sold?
- 4.) Please review and expand the Bluetooth operational description. How does this device create, modulate and amplify RF energy?
- 5.) The Parts List seems a little small. Are you sure there are no other active devices used in this product?
- 6.) Kindly provide a better GSM Test Setup photograph. The one supplied is unusable.
- 7.) FYI: More detailed comments may follow. I will proceed to detailed technical review shortly.

William H. Graff
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
