Power Output is Conducted. SAR compliance for body-worn operating conditions is limited to the specific configuration tested for this filing. Body-worn operations are restricted to belt-clips, holsters or similar accessories that have no metallic component in the assembly and must provide at least 15mm separation between the device and the user's body. End users must be informed of the body worn requirements for satisfying RF Exposure compliance. The highest reported SAR values are: Body-worn: 0.09W/kg

CC: This device is certified pursuant to two different Part 15 rules sections.
