To: Telecommunications Certification Body and Canada Certification Body

Declaration of Letter

We, the undersigned manufacturer, hereby confirm that the following device operates in a manner that fully complies with the FCC and Canadian Rules and Regulations.

Product:

FCC ID	Canada ID	Regulatory Model Number	Product Number	Product Marketing Name
B94RSVLC1103	466F-RSVLC1103	RSVLC-1103	J9798A	HP M220 802.11n AM Access Point

This product includes many configuration options for the customer. During set up of the product, the customer is allowed to select the country of operation. The product has been carefully designed so that any country configuration selected for this model of the product will result in the proper legal operation within the United States and Canada. The selection of a country other than the United States or Canada will only serve to further limit the available channels and or radio feature set. Country of operation settings other than the United States and Canada will always result in a *subset* of the U.S. and Canadian features.

If you have any questions or need additional information regarding this declaration, please feel free to contact us.

Sincerely,

Russell W. Carlson
Regulatory Engineer
