Ref: Application for Original Equipment Authorization for FCC ID: B94TNQ273GPPD

Dear Examiner,

This is to request FCC Authorization for original equipment under FCC ID: B94TNQ273GPPD.

The equipment in this application is HP model TPN-Q273 PC.

The equipment is a notebook PC. The equipment will also include two previously authorized transmitter modules as described below.

FCC ID: **PD9AX211D2** , originally granted 02/26/2021. This is a WLAN 802.11a/b/g/n/ac/ax module that is authorized for portable/mobile conditions.

FCC ID: **ZMOL850GL**, granted 03/10/2017. This is a PCS licensed transmitter LTE module authorized as single modular approval to Fibocom Wireless

The full PAG review was previously performed under KDB 498903. We believe this application may be granted without further PAG or PAG Re-use required. The exact same WWAN authorized modules are re-used in this PC with the exact same algorithm and validation methods for time averaging SAR as approved in KDB 498903.

Antenna specifications for these modules are included within this filing.

Sincerely,

A handwritten signature in black ink, appearing to read 'Steven C. Hackett'.
