

# 1 USER MANUAL

This is a copy of the manual page where the FCC statement is included :

## **FCC Class B (for USA only)**

Federal Communications Commission Radio Frequency Interference Statement  
Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the distance between the equipment and the receiver.
- Connect the equipment to an outlet on a different circuit to the one the receiver is connected to.
- Consult your dealer or an experienced radio/TV technician for help.

Hewlett-Packard's FCC Compliance Tests were conducted using HP-supported peripheral devices and HP shielded cables, such as those you receive with your system. Changes or modifications not expressly approved by Hewlett-Packard could void the user's authority to operate the equipment.

## **Notice for Canada (new statement - ref ICES-003 Issue 3 Nov 22, 1997)**

This Class B digital apparatus complies with Canadian ICES-003.  
Cet appareil numérique de la Class B est conforme à la norme NMB-003 du Canada.

## **Safety Warning for the USA and Canada**

If the power cord is not supplied with the computer, select a power cord in accordance with your national electrical specifications.

USA: Use a UL listed type SVT detachable power cord.

For your safety, never remove the PC's cover without first removing the power cord and any connection to a telecommunications network. Always replace the cover before switching the PC on.

Si le cordon secteur n'est pas livré avec votre ordinateur, utiliser un cordon secteur en accord avec votre code électrique national.

Canada: utiliser un cordon secteur certifié CSA

Pour votre sécurité, ne pas enlever le capot de cet équipement avant de débrancher le cordon secteur et toute connexion au réseau de télécommunication. Remettez toujours le capot avant de mettre sous tension.
