Subject: Supersede user manual and change FCC grant Note: Car Navigation to Car Audio
for FCC ID : BABFT0049A

FCC IDENTIFIER: BABFT0049A
Name of Grantee: Fujitsu Ten Limited
Equipment Class: Part 15 Spread Spectrum Transmitter
Notes: ~~Car Navigation~~ Car Audio

Please be advised that : the Note of the device name in the grant of FCC ID : BABFT0049A should be registered as "Car Audio" not "Car Navigation" since the device has no Navigation (GPS) function, but due to typo it was listed wrongly as "Car Navigation".

The FCC applicant, Fujitsu Ten Limited, sincerely hopes to correct the product name as "Car Audio" to avoid misleading the consumer. If the wrong product name has not been changed as correct one based on the actual function, our client may be claimed for device which is not truth with ID shown that will lose consumer's trust and company credit and also damage Fujitsu Ten Limited of Company Brand and Image. If so, that will be a remarkable impact to the Fujitsu Ten Limited of business.

In addition, since there is no navigation function on the device, we found out the statement "Navigation System Screen" is shown on the user manual. In order not to confuse the user, we have deleted it and revise the user manual which needs to be superseded on FCC site.

Therefore, kindly help supersede the user manual and change the grant Note as "Car Audio" to avoid the further damage to applicant business?

We surely appreciate your kind help for this matter. Best Regards,

Sincerely yours,

Alex Ko
