FCC Request for Rule Changes based on 17-93

February 22, 2019

Federal Communication Commission
Equipment Authorization Division
Application Processing Branch
7435 Oakland Mills Road
Columbia, Maryland 21046

FCC ID : BABFT0106B
Applicant : DENSO TEN Limited

To Whom It May Concern:

This request is to add Equipment Code JAB for FCC ID: BABFT0106B, originally granted on 05/12/2017 and all its permissive changes.

We change FM receiver part had confirmed conformity of Part 15 Subpart B to "Certification" procedure from "Verification" based on KDB 178919 D02 Q&A7.

This Car Audio with 2.4 GHz band WLAN / Bluetooth was granted as Part 15 Subpart C for composite "DTS" / "DSS", we add "JAB - Part 15 Class B Digital Device" as Equipment Code to this product.

This time, we performed the re-testing of Part 15 Subpart B because we changed the TFT manufacturer etc. from the based model. Please refer to the test report submitted with this application.

Also, for Part 15 Subpart C performed the testing and confirmed that it is Class 1 permissive change.

Thank you for your attention to this matter.

Sincerely,
