Re: PA1-1AEL (FCC ID: BBD1-1AEL)

To Whom It May Concern:

This amplifier complies with the requirements of FCC Rules 47 CFR § 2.815 (b) (2).

This amplifier may not be readily altered by the user to operate as an amplifier in the frequency band of 26 – 28 MHz. There are numerous impedance matching and filter elements whose values have been selected to determine the bandwidth in which the amplifier will operate.

Sincerely,

Mr. Lenny Uchenik  
Vice President of Engineering
