Mr. Landsperger,

You are not required to notify the FAA in this case, pertaining to equipment ID-BBD3-2BH-AIR FCC authorization. The requirement, per FCC 47 CFR Part 87-147d, is to notify the FAA "only" in the case of equipment intended for "transmission" and in the aviation bands listed in Part 87-147(d) (3).

Thanks,
Annette Allender
