CONTROLS & CONNECTIONS

NOTE: The fixed adhesive mount is a semi-permanent mount and the adhesive will be destroyed if it is removed from the windshield.

INSTALLATION

1 MOUNT
Remove adhesive backing and firmly press onto your windshield to install the **Fixed Adhesive Mount**. The camera slides in and out of the adhesive mount slot.

2 POWER
Plug the unit into your vehicle's cigarette lighter plug.

3 DRIVE!
When power is applied to the unit it will automatically turn on and start recording.
Press the **Record** button to stop or start recording.
Press to lock the current file so that it won't be recorded over.
To change languages, press **Menu** to enter **Video Options** and then navigate to **Language**.

COMPUTER CONNECTION

To view videos on a computer, connect the unit using the included USB to mini-USB cable.
The camera appears as a removable disk and files can be accessed in the DCIM folder.

NOTE: The optional GPS module (not included) saves GPS position, speed, and acceleration data to your video files. For more information or to purchase, visit www.cobra.com.

STORAGE
An 8GB Class 4 Micro SD card comes installed in this unit, but it can support up to a 32GB card.

CONTINUOUS LOOP RECORDING
When the card is full it will delete the oldest clips to make room for new footage.

For full product manuals and additional language support, visit www.cobra.com

CUSTOMER SUPPORT
Should there be any problems with this product or further information needed on its features please visit www.cobra.com for support, frequently asked questions, Declarations of Conformity, and the full product manual. For warranty and customer service information, please contact the seller.

FCC STATEMENT:
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.
