15 July 2008

Timco Engineering, Inc.
849 NW State Road 45
P.O. Box 370
Newberry, Florida 32669

Reference new Cobra Model Number: **CXT400A**

New FCC Identifier: **BBOCXT400A** (original FCC identifier: BBOPR4200)

To Whom It May Concern:

Persuant to 47 CFR 2.933(b), Cobra Electronics Corporation requests modification of the FCC identifier, BBOPR4200 granted on 07 August 2007, and associated with model PR4200 shown below in Figure 1.

Figure 1

This model number has been changed to **CXT400A**. For reasons of market differentiation, Cobra is requesting a new FCC identifier, **BBOCXT400A** and Grant of Equipment Authorization for this new model.

There are no electrical or mechanical revisions. The original test data supporting the Grant of Equipment Authorization BBOPR4200 remains representative of and applicable to the new model number. The new FCC identifier is being requested for market differentiation only.

The new identification label to be used with these models is shown below as Figure 2. The label location, in the battery compartment of the radio, was approved by the FCC at the time of the original grant of equipment authorization (BBOPR4200). The label location is shown in figure 3.
