03 July 2008

Timco Engineering, Inc.
849 NW State Road 45
P.O. Box 370
Newberry, Florida 32669

Reference new Cobra Model Numbers:
CX80, CXT80, CXT85, CXT86, CXT87, CXT88

New FCC Identifier: **BBOCXT85** (original FCC identifier: BBOPR195)

To Whom It May Concern:

Persuant to 47 CFR 2.933(b), Cobra Electronics Corporation requests modification of the FCC identifier, BBOPR195 granted on 03 June 2008, and associated with models PR191, PR195A, PR197, and PR198 shown below in Figure 1.

Figure 1

These model numbers have been changed to **CX80, CXT80, CXT85, CXT86, CXT87, and CXT88**. For reasons of market differentiation, Cobra is requesting a new FCC identifier, **BBOCXT85** and Grant of Equipment Authorization for these new models.

There are no electrical or mechanical revisions. The original test data supporting the Grant of Equipment Authorization BBOPR195 remains representative of and applicable to the new model numbers. The new FCC identifier is being requested for market differentiation only.

The new identification label to be used with these models is shown below as Figure 2. The label location is the subject of a separate request to FCC to locate the label in the battery compartment of the radio. A reference image from that proposal is included as Figure 3

Figure 2
