

Thank you for purchasing the Cobra FRS 120 2-Way Radio. Your microTALK radio comes with the new microTALK SNAP removable front, which allows you to customize the appearance of your radio! Several color choices are included with your purchase. For instructions on removing the microTALK SNAP front, see page 11. For additional color choices available as accessories (sold separately), please see the brochure and order form included.

Customer Support

Properly used, this Cobra product will give you years of reliable service. Should you encounter any problems with the product or not understand its many features, please refer to this owner's manual. If, after referring to the manual, you still need help, call Cobra Customer Service at 773.889.3087.

Warning

Your wireless handheld portable transceiver contains a low power transmitter. When the PTT button is pushed it sends out radio frequency (RF) signals. The device is authorized to operate at a duty factor not to exceed 50%. In August 1996, the Federal Communications Commission (FCC) adopted RF exposure guidelines with safety levels for hand-held wireless devices.

Important: To maintain compliance with the FCC's RF exposure guidelines hold the transmitter at least 2 inches (5 cm) from your face and speak in a normal voice, with the antenna pointed up and away. If you wear the headset on your body while using the headset accessory, use only the supplied belt clip for this product and ensure that the antenna is at least 2 inches (5 cm) from your body when transmitting. If the distance between the antenna and the body is LESS THAN 2.0" (5 cm). DO NOT USE THIS DEVICE IN THE BODY WORN CONFIGURATION. Use only the supplied antenna. Unauthorized antennas, modifications, or attachments could damage the transmitter and may violate FCC regulations.
