DECLARATION OF PERMISSIVE CHANGE.

It is hereby declared; that the GN Netcom developed "Jabra BT250" also named "Jabra BT250v" (ref.: grant of 2005-05-03 (FCC ID: BCE-250)) has been updated with the following changes:

- 1. Upgrade of Bluetooth Core IC from CSR BC02 to CSR BC03 integrating Bluetooth spec. version 2.0
- 2. Charging circuit removed as this is integrated in BC03
- 3. Changes to PCB to adapt to 1) and 2).

There are no change to mechanics and functionality. User Manuals and labelling etc. will not be affected.

With reference to CFR 47 Ch.1 § 2.1043 we consider this upgrade to be a Class II permissive change to certified equipment which does not requires a new application for a grant of certification, but requires the grantee to supply the Commission with complete information and results of tests of the characteristics affected by the changes.

GN Mobile has initiated a complete set of tests performed by an accredited test lab. Reports from this test series (FCC test report GOM20603-0325-P-15) verifies that Jabra BT250/BT250v still is in compliance with the requirements as set by FCC in 47 CFR part 15 and will be submitted to the Commission in conjunction with this declaration.

Yours faithfully
GN Mobile a/s (GN Netcom a/s)
