- ④ Battery lid (backside)
- ⑤ Battery

1. PUTTING THE BATTERY INTO THE HEADSET

To put the battery into the headset, slide the lid on the backside off, place the battery in the headset, and slide the lid back on.

TURNING YOUR HEADSET ON AND OFF

3 Seconds

5 Seconds

WARNING!

Headsets are capable of delivering sounds at loud volumes and high-pitched tones. Exposure to such sounds can result in permanent hearing loss damage. The volume level may vary based on conditions such as the phone you are using, its reception and volume settings, and the environment. Please read the safety guidelines below prior to using this headset.

SAFETY GUIDELINES

1. Prior to using this product:

Before putting on the headset, turn the volume control to its lowest level, put the headset on, and then slowly adjust the volume control to a comfortable level.

2. During the use of this product:

Keep the volume at the lowest level possible and avoid using the headset in noisy environments where you may be inclined to turn up the volume;

If increased volume is necessary, adjust the volume control slowly; and

If you experience discomfort or ringing in your ears, immediately discontinue using the headset and consult a physician.

With continued use at high volume, your ears may become accustomed to the sound level, which may result in permanent damage to your hearing without any noticeable discomfort. Using the headset while operating a motor vehicle, motorcycle, watercraft or bicycle may be dangerous, and is illegal in some jurisdictions. Check your local laws. Use caution while using your headset when you are engaging in any activity that requires your full attention. While engaging in any such activity, removing the headset from your ear area or turning off your headset will keep you from being distracted, so as to avoid accident or injury.

IMPORTANT!

Be sure to position the battery correctly. If the headset feels warm, the battery may be inserted the wrong way. Remove the battery and insert it in the other direction. Your headset should not be damaged and should function correctly.

FCC:

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Users are not permitted to make changes or modify the device in any way. Changes or modifications not expressly approved by Jabra (GN Netcom) will void the user's authority to operate the equipment.

IC:

Operation is subject to the following two conditions: (1) This device may not cause interference and (2) This device must accept any interference, including interference that may cause undesired operation of the device. The term "IC," before the certification/ registration number only signifies that registration was performed based on a Declaration of Conformity indicating that Industry Canada technical specifications were met. It does not imply that Industry Canada approved the equipment.
