**Applicant's declaration concerning  
Antenna Specification**

Your reference

Our reference

Date

June 22, 2006

Gentlemen,

It's hereby declared that the Jabra BT320s fulfils the requirement in FCC test relating to the antenna type.

The Jabra BT320s confirm to FCC recommendation with internal antenna type:

Planar inverted F type antenna  
Integrated as wire tracks, being a part of the PCB  
Total average gain of the antenna is 0dBi (typ.), +3dBi (max).  
Frequency range is 2.402MHz to 2.480MHz

Yours faithfully  
**GN Netcom A/S**
