Date

January 24, 2006

Gentlemen,

It's hereby declared that the Jabra BT325s fulfils the requirement in FCC test relating to the antenna type.

The Jabra BT325s confirm to FCC recommendation with internal antenna type:

Planar inverted F type antenna
Integrated as wire tracks, being a part of the PCB
Total average gain of the antenna is 0dBi (typ.), +3dBi (max).
Frequency range is 2.402MHz to 2.480MHz

Yours faithfully
GN Mobile A/S
