## Applicant's declaration concerning Antenna Specification

Your reference

Our reference

Date

21 March 2006

Gentlemen,

It's hereby declared that the Jabra BT500v fulfils the requirement in FCC test relating to the antenna type.

The Jabra BT500v confirm to FCC recommendation with internal antenna type:

Planar inverted F type antenna  
Integrated as wire tracks, being a part of the PCB  
Total average gain of the antenna is 0dBi (typ.), +3dBi (max).  
Frequency range is 2.402MHz to 2.480MHz

Yours faithfully  
GN Netcom as

Steen Kaiser  
Type Approval Engineer
