Declaration of upgrade of

Jabra BTE1

It is hereby declared that the

Jabra BTE1 Bluetooth Headset

in its upgraded version (QFN) as tested at 7 Layers AG, Germany, is identical to the previous version (BGA) with respect to functionality and electrical performance. The upgrade is based on cost optimization and the Bluetooth chip is basically the same and have the exact same data. The only difference is the chip pin-out and the PCB accommodated to this pin-out.

The QFN chip version will replace the BGA chip and BTE1 will from hereon only be manufactured with the new cheaper QFN chip version.

Also the BTE1 will be marketed utilizing the commercial names: Jabra BT2020, Jabra BT1020 and Jabra BT3020.

Type designation of all variants is BTE1. Variants are all 100% identical with respect to electronics and functionality.

Only difference to the variants is front cover and shape of buttons.

FCC ID: BCE-BTE1 will be printed on all variants. Also FCC ID: BCE-BTE1 will be printed on the Users Manual and backside of the packaging box along with other regulatory markings.

Yours sincerely

Signed Ballerup, 2007-09-14 on behalf of GN A/S by:

Name: Tom Ringtved

Position: Type Approval Engineer
