

Tune Up Procedure

Date: 2019-09-30

FCC ID: BCE-OTE120

IC: 2386C-OTE120

GN Audio A/S declares that output power tune-up target will be 7.5 dBm for GFSK/DQPSK/DPSK modulations, and 8 dBm for BLE modulation.

Tolerance in production will not exceed +/- 1dBm

GN Audio A/S also hereby confirms that it is not possible to a user to change to output power of the products in any way.

Sincerely
Steen Kaiser
