Dear Karin:

850 system verification done on 3/30 at 9:48 AM and SAR started from 3/30 at 2:42 PM which is complied with daily verification requirements as stated in OET 65 supplemental C and IEEE 1528.

1900 system verification done on 3/29 at 8:57 AM and SAR started from 3/29 at 1:09 PM . which is complied with daily verification requirements as stated in OET 65 supplemental C and IEEE 1528.

Based on above, we started SAR tests within 24 hours after system verification. Both 850 and 1900 liquid parameters calibration are within 24 hours.

Best Regards

Hi Mike,

it appears that the tests for the PCS 850 /1900 bands have been carried out in a time frame > 24h after that the system verification has been performed.

850 verification done on 3.30 at 9:48AM – Tests have been carried out 3.30 up to 31.3. 5:38 PM >24H window  
1900 verification done on 3.29 at 8:57 AM - Tests have been carried out 3.29 up to 30.3 12:49PM >24H window

Please explain.

Thanks in advance

**Best regards / Mit freundlichen Grüßen**
