

Date: September 23, 2011

Federal Communications Commission
Office of Engineering and Technology Laboratory Division
7435 Oakland Mills Rd.
Columbia MD 21046

Subject: Request for deferral of authorization date regarding Class II permissive change application for FCC ID: BCG-E2380A and BCG-E2380B

FCC ID: BCG-E2380A and BCG-E2380B

To whom it may concern,

Pursuant to Sections 0.457 and 0.459 of the Commission's rules (47 CFR §§ 0.457, 0.459), Apple Inc. hereby requests the deferral of the authorization date for the application for Class II permissive change referenced above.

Apple requests that the Commission defers the authorization date of the application for Class II permissive change, to October 4th, 2011, 2:00pm PST.

The information in this Class II permissive change relates to products that will not be announced by Apple until the requested authorization date, and is highly confidential. This information has been disclosed only to those required to maintain its confidentiality. As a result, disclosure of the authorization by the Commission before that date would reveal unannounced product information and would harm Apple by giving competitors an unfair market advantage .

Sincerely,

Tiberiu Muresan
