Ref: FCC ID: BCG-E2816A and BCG-E2817A

To whom it may concern:

Apple Inc. hereby declares that Carrier Aggregation (3GPP LTE Rel. 10) is implemented for downlink only. The uplink output power is independent of the downlink Carrier Aggregation being active or inactive, therefore uplink maximum output power (single carrier) was measured.

The design and test plan for Carrier Aggregation were described and approved in a manufacturer KDB.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tiberiu Muresan", is located below the "Sincerely," text.
