Attn: OET Department

To whom it may concern:

We, Apple Inc., attest that these devices under **FCC ID:**

A2848	BCG-E8435A
A3101	BCG-E8436A
A3102	BCG-E8437A
A3104	BCG-E8438A
A2849	BCG-E8439A
A3105	BCG-E8440A
A3106	BCG-E8441A
A3108	BCG-E8442A

complies with device protocol requirements and operational restrictions for Dual Client devices (6CD).

- a) These devices do not support indoor subordinate (6PP) category and the maximum power does not exceed authorized value.
- b) These devices will only associate and connect with a Low Power Indoor Access Point, Subordinate device, or Standard Access Point and never directly link to another client device.
- c) These devices will always initiate transmission under the control of a Low Power Indoor AP or subordinate device or standard power AP except for brief communications before joining a network. These quick messages will only occur if the client has detected an Indoor AP, Subordinate, or Standard Access Point operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP, it will not continually repeat the request.

- d) These devices, when associated and connected with a Low Power Indoor Access Point, Subordinate, or Standard Access Point device, will operate at a power lower as advertised by the Low Power Indoor access point, Subordinate or Standard Access Point:
  - a. Lower than or equal to the power advertised by the Low Power Indoor Access Point or Subordinate device and never above the maximum output power level allowed by the FCC grant for clients associated with indoor clients or subordinates.
  - b. At least 6dB below the power advertised by the Standard Access Point.
- di) We acknowledge that these devices are subject to and in full compliance with the device restriction listed below.
  - a. Prohibited for control of or communications with unmanned aircraft systems, including drones.

Sincerely,

A handwritten signature in blue ink that reads "Abhishek Rala".
