MICROAMP50

BI-DIRECTIONAL AMPLIFIER FOR SMALL AREA INDOOR COVERAGE

The MicroAmp50 is a high-performance bi-directional amplifier and integrated AC power supply. It is a cost-effective solution specifically designed for small area indoor coverage and is driven by an external donor antenna. The MicroAmp50 comes with either a built-in antenna or external antenna port for maximum flexibility in coverage shaping.

- Built-in overload protection
- Minimum environmental impact
- Trouble free installation and service
- Multiple passbands available
- Supports multiple bands:
 - LMR
 - Cellular
 - TACS
- Supports all technologies:
 - Analog
 - CDMA
 - TDMA
 - IDEN
 - GSM
