

Exhibit 11: RF Exposure/Environmental Evaluation**Section 15.319 (i)****Requirement:**

Unlicensed PCS devices are subject to the radiofrequency radiation exposure requirements specified in § 1.1307(b), 2.1091 and 2.1093 of this chapter, as appropriate. All equipment shall be considered to operate in a "general population/uncontrolled" environment. Applications for equipment authorization of devices operating under this section must contain a statement confirming compliance with these requirements for both fundamental emissions and unwanted emissions. Technical information showing the basis for this statement must be submitted to the Commission upon request.

Demonstration of Compliance:

The IX-PS6 is classified as a portable device. Therefore, the IX-PS6 is subject to routine environmental evaluation for RF exposure as per § 2.1093(c).

Testing to demonstrate compliance to this section was performed by the University of Utah and the results of this test was sent as a separate pdf file.
