

**Exhibit 12: Operational Description****§ 15.203 Antenna Requirements**

The IX-PS6 uses a Dipole antenna that is permanently attached to the back cover and the radio board and is not accessible by the user. The same type as specified by the manufacturer can only replace these antennas; therefore, it meets the requirements of this section.

**§ 15.307 Coordination with fixed microwave service**

Enclosed on the following page is the UTAM affidavit stating compliance to this section.

**UTAM Affidavit**

**Communication Certification Laboratory**

December 5, 2000

Iwatsu America Inc.  
Mr. Yuji Nomura  
430 Commerce Blvd.  
Carlstadt, NJ 07072

Dear Yuji:

In behalf of UTAM, Inc., Communication Certification Laboratory, has certified that the OMEGA-PHONE specifically identified below, meets the disablement and location verification process (LVP) requirements of FCC Rule 15.307, and qualifies as a UTAM approved coordinatable device.

**Applicant:**

UTAM Member Number: IWATSU1  
System Certification ID: BD6CCLUM00036

**FCC ID Number(s):**

Fixed: BD6ADIX-BS

Mobile: BD6ADIX-PS

**Model number(s):**

System: ADIX-100, ADIX-200, ADIX-450, ADIX-S, ADIX-M,

ADIX-L, ADIX APS, and ADIX E-1000

Fixed: IX-BS5

Mobile: IX-PS6

Any changes to the (LVP) or disablement mechanism and procedure or any changes to the FCC Certification may require recertification by UTAM, Inc. Please document and forward the details of any changes to Communication Certification Laboratory.

Communication Certification Laboratory will continue to maintain strict confidentiality regarding the engineering and functionality of your product, including the disablement and location verification mechanism.

A copy of the affidavit shall be included with your application for certification by the FCC, in accordance with FCC Part 15, Subpart D.

Sincerely yours,

Richard D. Foster  
Certifying Engineer
