**Tri-band Quad-mode CDMA Phone (Amps/Cellular/PCS/GPS)
Part 22, 24 Certification
Request for Confidentiality**

Gentlemen:

In accordance with 0.459 of CFR 47, LG Electronics, Inc. hereby requests confidentiality of the Block Diagrams attachment, Schematic Diagrams & Circuit Description attachment, Operational Description attachment, and Parts List/Tune-Up Procedure attachment for the above-referenced Type Acceptance application.

These documents contain detailed system and equipment description and related information about the product which LG Electronics Inc. Considers to be proprietary, confidential, and a custom design and, otherwise, would not release to the general public.

Since this design is a basis from which future technological products will evolve, LG Electronics Inc. considers this information to be of benefit to its competitors, such that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely,

SUBJECT: LG Electronics USA

FCC ID: BEJ4600
911 Call Processing Per Section 22.921

Gentlemen:

LG Electronics Inc. on behalf of LG Electronics USA hereby certifies that the wireless telephone (FCC ID: BEJ4600) processes 911 calls in a manner that it believes to be consistent with Section 22.921 of the Commission's Rules. The procedure recognizes when a 911 call is made and, at such time, will override any programming in the mobile unit that determines the handling of a non-911 call. Once a 911 call is made, the user will be provided visual feedback that a 911 call is in progress. If the call is not connected to the currently acquired network within 17 seconds, the phone will try other networks, including both analog systems and all other compatible digital networks. Upon the interruption or the normal ending of a call, the phone will remain in the emergency call back mode to await a callback from the Public Safety Answering Point for up to five minutes.

This attestation statement supercedes the earlier statement.

Sincerely,
