

Dear Timothy R. Johnson,  
I talked about video cable with LG Electronics person in charge.  
As a result, concluded that offer video cable for RGB in LG Electronics.  
But, HDMI(DVI) cable is not offered  
Because We tested HDMI(DVI) port without ferrite bead.  
-Please see Photos of the test reports.

1)I uploaded revised manuals for BEJ50PY2DRUA.  
-See 12 page manuals-1, There is cables statement for RGB.

Thank you

Yang.
