In re: LG Electronics Inc.
FCC ID: BEJCU400
Class II Permissive Change
HAC T-coil Application

Gentle men:

Changes were implemented to enhance audio performance, via software (T-coil mode).
The users manual has been revised to inform the user of proper operation of the T-coil mode.

This letter is also to certify that the phone has never been marketed or sold in the US.
and there are no units in the field. Only units with the T-coil mode will be marketed in the U.S.

We respectfully request for expedited processing of the above application. Thank you.

Sincerely,

E.S.Park
Manager
Mobile Handset R&D Center
Mobile Communications Company.
